

# Summer School of Southeast University

## Huangyao Ancient Town Heritage Protection International Workshop

### Candidature

Opening time:

May 15, 2023, 12AM CET

Closing time:

July 31, 2023, 12AM CET

August 14 - August 27, 2023

**Southeast University (SEU)**, founded in 1902, is located in Nanjing, a Chinese historical and cultural capital with a history of over 2500 years. The School of Architecture of Southeast University is one of the most prestigious higher education institutions on architecture in China, with its Key Laboratory of Urban and Architectural Heritage Protection accredited by the Ministry of Education, and partner of ICOMOS China.

### EARN 2 COLLEGE CREDITS

Participate to a two-week interactive workshop with experts from China and Europe and university tutors on international heritage preservation and earn 2 credits for SEU students.

### PREPARE FOR GRADUATE & POSTGRADUATE SCHOOL

Meet with graduate admission officers of SEU and learn about experts and research institutions from France and European countries and increase international vision.

### PARTICIPATE TO ACTIONS IN CULTURAL & NATURAL HERITAGE PROTECTION

Collectively put forward solutions according to building environment and heritage protection requirements to cultivate the participants' cognitive and practical ability in heritage protection:

- Conduct with international experts on-site surveying and mapping of ancient vernacular building heritage;
- Propose strategy for preservation of biodiversity;
- Enhance community capacity learning and participation.

**Building For Climate (BFC) architects & urban planners** is headquartered in Paris, with expert members of ICOMOS, in cooperation with SEU for the Sino-French Huangyao Heritage Preservation Project. Specialist of bioclimatic architecture and climate change resilience, BFC leads sustainable building projects and research actions on cultural and natural heritage in China, France, Indian Ocean tropical islands and Africa.

### ELIGIBILITY

We welcome currently registered undergraduate students and recent graduates from SEU and international universities. Applicants should meet the following conditions:

For students from SEU

Undergraduates in grades 3,4 major in architecture;

Postgraduate in heritage preservation, architecture design and architecture & environment design

For international students

Undergraduates from grade 4 & postgraduates with major in architecture, building materials, urban & landscape studies, anthropology, Chinese culture and heritage conservation.

### SCHEDULE

The workshop in Huangyao Ancient Town (two weeks):

- Week 01: online lectures from international tutors, literature research, comprehensive cognition, case study.
- Week 02: field practice in Huangyao Ancient Town.

Travel fees for international students from abroad to Huangyao are at the expense of each candidate; successful candidates will receive invitation letters for the visa procedure.
